Re: *PEB 4974 – ULTRABOND ACRYL-8CC*

Dear Ms. Thomas:

The ULTRABOND ACRYL-8CC, manufactured by your company, were submitted to the Product Evaluation Board (PEB) of the Alabama Department of Transportation for approval consideration. Based on the review of the product application, associated documentation, and/or completed testing, the PEB concluded that the product met the initial requirements for placement on the Department's *List of Qualified Materials, Sources, and Devices*.

The referenced product will be placed on List II-15, Concrete Anchoring Systems, under the heading "Injection Type". This product will remain on the list as long as it continues to meet the Department's current specifications and performs satisfactorily under field conditions.

As a requirement to remain on a list you must provide only approved products to the Department projects and promptly notify us through formal correspondence (i.e. company letter) of any changes in production of the product or alterations that may change the product chemically or physically. This will allow our listing to stay current and will prevent your product from being removed from the list due to out-of-date information or failure to adhere to the terms outlined above. In addition, we reserve the right to request samples for testing at our convenience and/or require the submittal of current test data from a certified/qualified testing laboratory for our review should the product fail to perform satisfactorily or if changes are made to the product after placement on our list.

If you have additional questions or need to notify of any changes, please contact Ms. J. Michelle Owens or Ms. Kwaishawn Albritton at (334) 353-6940.

Sincerely,

George H. Conner, P.E.
Chairman, Product Evaluation Board
