

Product

Application Reference #: 23776

Product Name: ULTRABOND 1

Manufacturer's Part Number: A22-1N

Patented?: Yes No Applied For Not Applicable

Product Type: 509 Microsilica Modified Concrete

Section: 509-2.01 Epoxy Resin Mortar - Adhesive

Specifications: AASHTO M235 Type I, Grade 3

DOT Notes:

Product Information

Background Description of Company and This Product

Be precise, include product differentiation between your products and/or competitor's products.

Adhesives Technology Corporation manufactures a wide variety of 2-component adhesives for highway and bridge construction needs. Our products are used for a variety of projects including anchoring/ doweling/ bonding and crack and spall repair. Our superior products and unsurpassed customer service make us the best construction adhesives company around.

ULTRABOND® 1 is a 2-component, 1:1 mix ratio, structural epoxy system that offers exceptional strength in anchoring and doweling applications and can be used in temperatures from 40 °F to 110 °F (4 °C to 43 °C). ULTRABOND 1 in cartridges has been tested in accordance with ASTM E488 and ASTM E1512 for its capability to resist static, dynamic, seismic and wind loads in uncracked concrete for both threaded rod and rebar.
