Type V (load-bearing)

To whom it may concern:

The Idaho Transportation Department (ITD) Product Review Team completed an evaluation of your product submitted for their consideration. In reviewing your product application and associated documentation, we have determined that your product, as submitted, meets the minimum requirements for an "Approved" status on the Department's Qualified Products List (QPL) in the category/subcategory listed above. The product will retain this status on the QPL solely at the Department's discretion. Product status is contingent upon the following conditions:

- Product continues to meet the Department's product specifications
- Product performs satisfactorily under field conditions.
- To ensure the QPL information remains current we require the following updates -
 - Manufacturer submittal of updates whenever any changes are made in regard to the product design or composition, company name, address, or contact information.
 - Product is subject to a mandatory 5-year update/recertification process.
 - Failure to provide updated information when applicable or when requested could result in removal of your product from the QPL.

The Product Review Team may have established product restrictions during the evaluation process. If so, they are located on the product listing status page. Our website is: <http://apps.itd.idaho.gov/apps/materials/QPL.aspx>, should you wish to check for any restrictions or on the status of your product approvals.

We reserve the right to request samples for testing at our convenience and/or require the submittal of current test data from a qualified testing laboratory for our review should the product fail to perform satisfactorily or if changes are made to the product after placement on our QPL.

If you have any questions concerning your product listing, please contact Tom Furrer at 208-334-8440, or ITDQPLAdmin@itd.idaho.gov.

Sincerely,

Tom Furrer

Idaho Transportation Department, Qualified Products List Administrator
