Attention: Renee Thomas
Sr. Engineer & DOT Manager/Compliance

Subject: Ultrabond HYB-2CC as High Strength Hybrid Anchoring Adhesive by Adhesives Technology Corporation.

Dear Ms. Thomas,

Your submittal for INDOT approval of Ultrabond HYB-2CC as High Strength Hybrid Anchoring Adhesive was reviewed and found to be in accordance with 901.05 of the Standard Specifications. The sample of the product was successfully tested in accordance with ITM 807. The tested adhesive withstood applied tensile load at 7,200 lbs/min until the load reached 36,000 lbs the yield of installed #7 rebar required for INDOT approval; therefore, Ultrabond HYB-2CC made in the USA will be added to INDOT qualified products list of Chemical Anchor Systems.

Installation of a chemical anchor system on an INDOT contract shall be in accordance with the instructions provided by the manufacturer and subject to the restrictions described in QPL. Maintaining approval of Ultrabond HYB-2CC shall be in accordance with Section 11.2 of ITM 806.

If you have any questions, please contact Elena Cruz at ecruz1@indot.in.gov.

Respectfully,

Michael W. Nelson
